

Grade 9 Assessment of Mathematics

Students in English-Language Schools, 2023–2024

The Grade 9 Assessment of Mathematics assesses the mathematical knowledge and skills students are expected to have learned by the end of the Ontario Grade 9 mathematics course (MTH1W).

Participation

131 893

students fully participated

(This includes all students who took part in the assessment and, as a result, have data.)

Overall Achievement

54%

of students met the provincial standard (Levels 3 and 4)

The results are **the same** as those from the previous school year (54%). The three-year trend shows **an increase** in the percentage of students meeting the provincial standard.

It is encouraging to note that among the 36% of students who achieved Level 2 in mathematics (47 929 students), almost half (22 572 students) were close (as indicated by a high Level 2 outcome) to meeting the provincial standard and demonstrated most of the knowledge and skills required for work in subsequent grades.

Learners' Context

48%

of students like mathematics.

36%

of students say that mathematics is one of their favourite subjects.

51%

of students think they are good at mathematics.

64%

of students think they understand most of the mathematics they are taught.

EQAO data, alongside information from other sources, can strengthen conversations about student learning across Ontario. Analyses of results contribute to a better understanding of student learning over time.
